

IFEANYI BONIFACE ANYANWU

FRONTEND & FULL-STACK SOFTWARE ENGINEER | REACT • NEXT.JS • TYPESCRIPT • NODE.JS

Lagos, Nigeria • +234 810 508 0543 • anyanwuifeanyi3@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven **Frontend & Full-Stack Software Engineer with 4+ years of experience** architecting, deploying, and scaling production web systems using **React, Next.js (App & Pages Router), TypeScript, and Node.js**. Currently the sole frontend engineer at **FoodHutz**, directly responsible for four live commercial web platforms spanning online reservations, takeaway ordering, and merchant dashboards. Demonstrated success optimizing complex client-side state with Redux Toolkit and RTK Query (reducing redundant API calls by 40%), elevating Core Web Vitals and SEO rankings, and building robust full-stack REST/GraphQL integrations.

TECHNICAL SKILLS

Frontend:	React.js, Next.js (App & Pages Router), TypeScript, JavaScript (ES6+), Angular, Vue.js, Redux Toolkit, RTK Query, Tailwind CSS, Sass, HTML5, CSS3
APIs & Backend:	Node.js, Express.js, RESTful APIs, GraphQL, MongoDB, Mongoose, Firebase Realtime Database, Strapi CMS, Sanity CMS
Cloud & DevOps:	AWS (S3, EC2), Vercel, DigitalOcean, Git, GitHub, GitLab, Docker, CI/CD Pipelines
Architecture & Tools:	Postman, Insomnia, Figma, Responsive Design, WCAG Accessibility, Performance Tuning, Core Web Vitals, SEO Architecture, Agile/Scrum

PROFESSIONAL EXPERIENCE

FoodHutz — Next.js & Frontend Engineer

London, UK (Remote) | Jan 2024 – Present

- Serve as sole frontend engineer owning user-facing architecture across 4 multi-repo production applications used daily by UK diners and partners.
- Engineered customer table reservation platform featuring custom calendar scheduling, dynamic seat limit controls, time-slot pricing, and real-time sync.
- Developed and optimized the OneClick takeaway ordering portal, improving page speed by 35% and streamlining checkout UX for higher conversion.
- Built merchant back-office vendor dashboard allowing restaurants to manage menus, table bookings, customer orders, and operational metrics.
- Architected client caching with Redux Toolkit and RTK Query to reduce server load and eliminate redundant requests by over 40%.
- Integrated Sanity CMS and Strapi headless systems to empower non-technical content teams with instant menu and landing page publishing.

City of David Atlanta (RCCG) — Frontend Developer (Contract)

Atlanta, GA (Remote) | 2024

- Built responsive, accessible, and SEO-optimized organization platform with Next.js, modern React component architecture, and Tailwind CSS.
- Integrated secure Stripe payment processing for recurring and one-time contributions, with Firebase real-time database synchronization.
- Optimized page rendering and mobile responsiveness, achieving top tier Google Lighthouse performance and accessibility scores.

Xcursions — Full Stack MERN Developer (Contract)

Lagos, Nigeria | July 2023 – Dec 2023

- Developed full-stack luxury travel application using Next.js, React, Node.js, Express.js, and MongoDB, delivering customer interfaces and RESTful APIs.
- Implemented flexible installment payment calculation engine, allowing travellers to schedule milestone payments for vacation packages.
- Designed modular, reusable UI components and scalable MongoDB schemas that significantly accelerated feature release cycles.

My Event Pod — Frontend Developer (Internship)

Liverpool, UK (Remote) | Nov 2019 – May 2020

- Built production React and Next.js UI components for an international event discovery and ticketing platform, improving load performance.
- Authored custom React hooks and API integration layers for predictable component state management and resolved legacy frontend bugs.

EDUCATION

Imo State University — Bachelor of Science (B.Sc.) in Software Engineering

Owerri, Nigeria

- Core: Software Engineering, Data Structures & Algorithms, Database Systems, Object-Oriented Programming, Distributed Architecture.
